

One Channel DALI Relay Device

General Purpose 10A load switching device

www.dignet.net.au

Range

DGOZ-RLY-10A-01

Overview

The RAPIX one channel DALI Relay Device is designed specifically for on/off switching of up to 10 Amps of lighting load via DALI commands issued on a connected DALI line.

The on-board 240Vac rated relay is capable of switching a full 10A of LED, fluorescent, incandescent and HID lighting loads, making it suitable for a wide range of commercial and industrial building applications.

The device includes a large area for terminating all 1.5mm² or 2.5mm² double insulated cables (240Vac supply cables, switched load cables and DALI Line cables).

To maximise relay contact life, the relay unit includes a patented zero cross detection feature. This ensures that when the load is switched on the relay contacts are closed at the ac load voltage zero-crossing point and when switched off the relay contacts are opened at the load ac current zero-crossing point.

The device is fully tested to and complies with DALI standards IEC 62386.

Features

General purpose load switching (ON and OFF) via received DALI commands

Capable of switching 10AX @ 240Vac

Included Neutral and Earth termination bars

Suitable for mounting in a ceiling void

Zero crossing point detection to maximise relay contact life

Optional DIN rail mounting bracket

Fits through a 90 mm down light hole

LED indicators (DALI and power)

Relay channel consumes one DALI short address

The relay channel is able to be allocated up to 16 DALI Group Addresses

The relay channel is able to be allocated up to 16 DALI Scenes

Short Address, Group Addresses and DALI scenes can be configured by Dignet RAPIX Addressing software

Typical Applications

Commercial buildings
Hotels
Health care facilities

Education facilities
Homes

Industrial facilities
Warehouses

Specifications

Item Number	DGOZ-RLY-10A-01
Number of switched outputs	1
Nominal Mains Supply Voltage	220 – 240V ac
Mains Frequency Range(s)	47 – 63 Hz
Electrical Isolation	3.75kV (DALI to Mains)
Status Indicators	Mains (red LED) DALI (green LED)
DALI line current draw	2mA
Load Rating	Resistive 10A Inductive 10A Fluorescent 10A Motor 2A
Relay Switch Operations	↑50,000 operations at rated load
Relay Contact Type	Bifurcated High Inrush
Relay zero crossing switching detection	Zero voltage detection at relay turn-on utilising patented terminal voltage sensing technique Zero current detection for turn-off load utilising patented terminal voltage sensing technique
Standby Power	↓500mW
Dimensions	See separate Diagram
Mains Terminals	2 x 2.5mm maximum per terminal or 3 x 1.5mm maximum per terminal
DALI Terminals	2 x 2.5mm maximum per terminal or 3 x 1.5mm maximum per terminal
Weight	160g
Operating Temp. Range	0-50°C
Operating Humidity Range	95% ↓ 95% RH non condensing
Mounting Arrangement	Surface mount via 6mm mounting holes , DIN rail mounting (with optional DIN rail mounting bracket)
Housing Material type	Flame Retardant Polycarbonate
IP Rating	IP20
Compliance Marks	CE, RMC, DALI
