

Sylflood AS

Asymmetrical Floodlight

The Sylflood AS is a versatile general purpose floodlight suitable for a wide range of applications and featuring High Pressure Sodium and Metal Halide lamp options from 150W to 400W. The 360° rotational trunnion allows the Sylflood AS to be positioned at the correct alignment for every application.

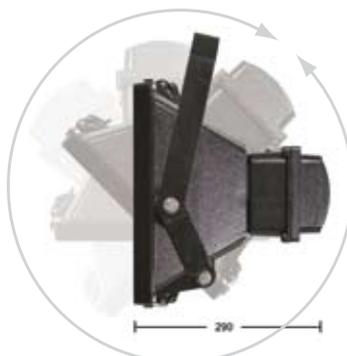

Luminaire Construction

- High pressure die-cast aluminium body and frame
- 5mm safety glass in hinged frame
- Weatherproof and durable gasket system
- Anodised peened aluminium reflector system
- Polyester powdercoat in Black
- M20 cable gland

Features

- 360° rotational trunnion as standard
- Versatile asymmetric beam distribution
- Visor retention via maintenance friendly latch fixing system
- Rear gear housing maintains excellent thermal integrity
- PE Cell option
- Hood option
- Wire guard option

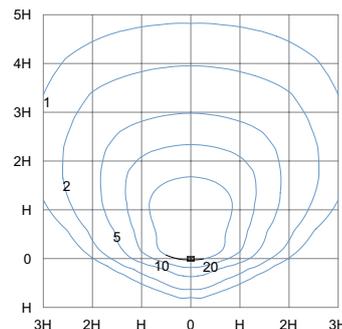

Applications

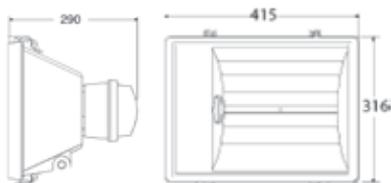

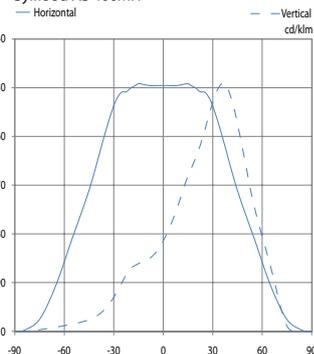

Sylflood complete with 360° rotational trunnion

Sylflood AS 400MH
H = 10m Aim = 30deg

H	Multiplier
8.0	1.56
10.0	1.00
12.0	0.69

Sylflood AS 400MH

CODE	DESCRIPTION	TYPE	BASE	LAMP	WEIGHT
