

Huntsman LED Rugged Floodlight built to last in arduous conditions

Built with a tough wire guard, weather and dust protection, and an efficient die-casting heatsink design that make this floodlight safe to touch

Huntsman Rugged

An outdoor IP66 sturdy LED mining flood light that features a heavy duty die-cast aluminium heatsink with electrophoresis plating & powder coating, weather/dust guard, LED light engine protected by a hardened glass visor and wire guard, specialised optics and integrated driver.

Features

- Excellent optical reflector design
- Equipped with weather/dust protective guard cover
- Efficient die-casting heatsink design
- Specialised optics and integrated driver engine
- Electrophoresis and powder coating finish
- Protective wire guard design
- Integral gear - constant current driver
- 50,000 hour 100W LED floodlight
- 5 year warranty

Benefits

- Professional mining LED Floodlight
- Safe to touch housing temperature
- Precise and efficient reflector system

Specifications

- Die cast aluminium body
- Equipped with weather/dust protective guard cover
- Electrophoresis and powder coated finish in black
- IP66 weather protection
- Quality PG13.5 cable gland
- Adjustable bracket provides 237° degrees tilt rotation
- CCT 4000K, CRI >70
- Non Dimmable

Key Application

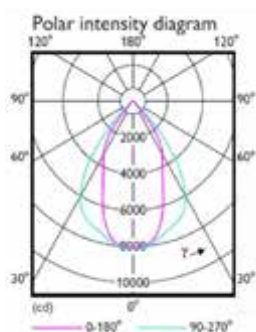

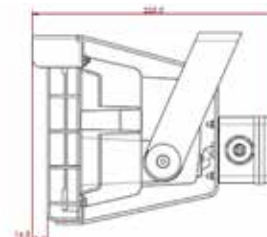

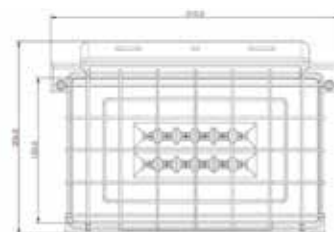

Ideal for mining, industrial and arduous conditions

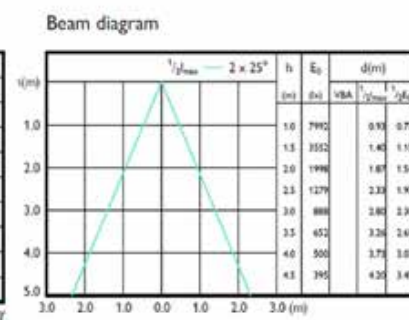

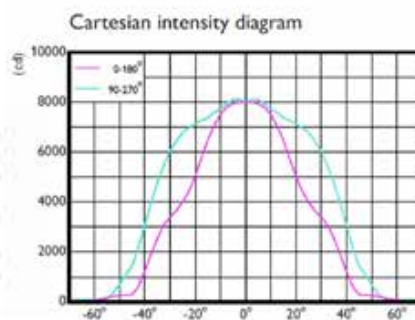

Wireguard

Flexible mounting

Light output ratio 1.00
 Service upward 0.00
 Service downward 1.00
 Intra 7992 cd
 BS ($\frac{1}{2} \theta_{max}$) 2 x 25°
 BS ($\frac{1}{2} \theta_{d}$) 2 x 21°
